Mounting

Charging:

Before using your VOLO URBAEON LED for the first time, fully charge battery.

1. Turn OFF the light
2. Remove USB Protective Cover
3. Connect micro USB cable and light to powered USB port
4. Once charging, button will be on red. Light will be charged after 4 hours or when button turn green.
5. Remove light from Charger and reinstall USB protective cover, ensure USB protective cover is fully installed for water resistance.
6. For long period storage, it is important to charge the battery 30 minutes every 6 months.

Warning: When light is on, the metal body will become hot, please do not touch it.

"Light on" mode:

Single click the button to entry "light on" - "light off" mode.

"Flashing" mode:

In "light on" mode, double click the button each time to switch to "light flashing mode".

Hold the button in "Light on" / "Flashing" mode to adjust the brightness of the light.

Mode Memory: The light remains in the adjusted brightness when it is switched off.

Factory Data Reset:

Triple click the button when light is on. "URBANEON" will turn off and restore factory default setting. (MAX brightness).
